## VT575

The portable projector that works for you.

Ahead of the learning curve so you don't have to be.

- **Connectivity.** Color-coded and well organized with connections for every source.
- **Remote control.** Adjust volume and select sources with the touch of a button.
- **Keypad.** One touch source changes and complete menu control using the intuitive projector keypad.
- **Design.** The attractive and inviting design of the new VT series projectors will grab attention before your presentation even begins.

How does a projector work for you? Like this:

- **Quick start up.** Warms up and projects in seconds.
- **Square shot keystone correction.** Instantly project a square image even when the projector is set up at a steep offset angle to the screen.
- **Plenty of get-up and go.** AutoSense™ automatically syncs the projector with any computer signal and features one-touch image optimization.
- **Great picture quality.** The VT575 has XGA native resolution and 1500 ANSI lumens. Patented NEC technologies like AccuBlend and VORTEX™ Technology enhance already impressive image quality.
- **Monitor output.** Easily connect an external monitor for use with a desktop computer.
- **Quiet operation.** Nearly silent operation.

Save money, resources and your projector.

- **Eco-Mode™.** Extends lamp life and makes a low operating cost even lower.
- **Security features.** Enhanced multi-leveled security features protect your investment by deterring theft.
- **Lamp protection.** Internal sensors prevent lamp from being turned on before completely cooled.
- **Award-winning service.** Service programs like EcoCare<sup>SM</sup> and InstaCare<sup>®</sup> ensure peace of mind.
