NEC PA803U

From The Wire@SVConline · Feb 24, 2018

[NEC's PA803U](#) is an 8000-lumen widescreen advanced professional installation projector ideal for higher education and corporate users. With its multitude of digital inputs, connection to any computer or high definition device is possible. Enjoy design and installation flexibility with a complete line of optional powered lenses (lens shift, focus, and zoom), tilt-free, and portrait installation capabilities along with built-in edge blending and stacking. The HDBaseT input and separate HDBaseT loop out provide single connections for uncompressed full HD digital video, audio, ethernet power, and various control signals. Display 4K 60P content uses NEC's proprietary high performance video processing/scaling chip without the loss of critical details. HDR10 and BT.2020 signals from Ultra HD Blu-ray and 4K TV broadcasting are supported on all digital inputs. Utilization of the optional MultiPresenter Stick provides those looking for a network connection easy connection with up to 12 devices at once. Integrated software applications such as DisplayNote, Crestron Roomview, AMX Beacon, Extron XTP, and PJ link allow for complete interactivity and control.
