

The PA1004UL

The Featured Projector in the Digi Award Winning Best Digital Signage Application of 2021

The newest PA Series projector provides crystal clear imagery while disappearing into its environment.

Winner of the Best Digital Signage Application:

Digital Signage As Art – Digi Awards 2021

Offering quick and easy installation in multiple venues while offering the brightness and functionality needed for projection mapping or digital signage applications, the PA1004UL does not disappoint.

The PA1004UL keeps the total cost of ownership down thanks to its [unique LCD cooling system](#) eliminating the need for repeated cleaning or filter changes. Save costs and setup time with its broad lens compatibility which allows for continued use of previous generation PA Series lenses.

Contact your NEC representative to learn more:

With whisper quiet operation, the PA1004UL operates nearly imperceptibly at 35dB. So everyone can be heard regardless of how close someone is to the projector.

Don't just take our word for it, check out Projector Central's review of the PA1004UL
