¹ Discontinued refers to product that is out of stock at NEC and is no longer manufactured.

² Discontinued refers to product that is no longer manufactured, however it may still be available in the retail channel.

³ NEC/Samsung SWL-2100N (5V version) is only available through the NEC dealer network. (3.3V version will not work)

⁴ NA means wireless feature is 'Not Available'.

⁵ Integrated means the projector has a built in wired network adapter

⁶ NEC NWL-100A is only available through the NEC dealer network.

Note1: Some model cards might require an update in projector firmware.

Note2: Linksys WPC11 v4.0 wireless PC Cards is not compatible with current models.

Note3: Only one network adapter can be used at a time in the following models.

MT: If a second Network card is inserted into the PC Card slots, the first card inserted will be the only card recognized.

GT: Select either 'Built In' or 'PC Card' in the menus for a network adapter. GT has a built in wired adapter, or an optional wireless network card can be used.

Note4: Both network adapters can be used in the LT245/265.

Note5: All Network PC Cards listed above will also work in a notebook PC.
