**NEC DISPLAY SOLUTIONS LAUNCHES ACCUSYNC GX AND CX LCD DISPLAY  
SERIES FOR FULL-THROTTLE GAMING ENTHUSIASTS,  
MULTIMEDIA-MINDED CONSUMERS**

***OptiClear Technology, Amp'd Specs, Stylish Wide-Screens Provide Vibrant  
Images While Maximizing PC, Multimedia and Gaming Applications***

**CHICAGO – September 11, 2007** – NEC Display Solutions of America, a leading stand-alone provider of LCD desktop and commercial large-screen LCDs, plasma displays and projectors today unleashed the new AccuSync GX and CX Series of wide-screen monitors. The 19-inch AccuSync LCD19WMGX, the 22-inch LCD22WMGX, and the 24-inch LCD24WMCX displays promise to serve up both speed and performance.

These new AccuSync wide-screen displays replace the award-winning GX<sup>2</sup> Series, which set a new performance standard for gaming LCD monitors. By going larger and wider, the new displays address the growing appetite among avid gamers and consumers for wide-format viewing. The wide aspect displays deliver more room for easier multi-tasking and more range for precise multi-blasting. The LCD19WMGX and the LCD22WMGX also include super-bright OptiClear Screen Technology, which provides rich color saturation, remarkable clarity and true-to-life contrast to enhance the user's overall visual experience.

“As performance-hungry consumers make the transition to wide-screen displays, NEC offers this premium AccuSync GX and CX wide-screen series with better performance in a larger screen footprint,” said Andy Anderson, Product Manager for NEC Display Solutions. “These users are craving high-performance, wide-screen displays to stream

video, view and edit photos, or explore dynamic Web content with accurate representation.”

The AccuSync LCD22WMGX features a 1680 x 1050 native resolution, while the AccuSync LCD24WMCX runs optimally at 1920 x 1200. The AccuSync LCD19WMGX features a 1440 x 900 native resolution. These new displays include integrated speakers, 5-millisecond response times, and 1000:1 contrast ratio (LCD19WMGX) and 2000:1 dynamic contrast ratios (LCD22WMGX and LCD24WMCX). The displays feature HDMI connectivity and HDCP so users can showcase the latest high-definition content from a multitude of sources. Users can interface with PCs, DVD players and video-game consoles to utilize the stunning performance of the GX and CX Series.

The new wide-screen AccuSync GX and CX Series includes the following features:

- Super-bright OptiClear Screen Technology, which provides rich color saturation, remarkable clarity, and true-to-life contrast to enhance the user’s overall visual perception
- Rapid Response technology (5ms), which delivers seamless video for gaming and streaming, and finely detailed images for photos and graphics
- Component inputs (LCD22WMGX and LCD24WMCX), which enable users to interface with PCs, DVD players and video-game consoles, utilizing the monitors’ superior performance
- HDMI connectivity to the latest and greatest multimedia sources (via DVI adaptor for the LCD19WMGX)
- HDCP, which allows copy-protected HD content to be displayed properly
- Ambix<sup>®</sup> Technology, which allows for digital/analog compatibility with upgraded video cards and software as well as connection to two systems
- DV mode, which includes six pre-set viewing preferences for a customized visual experience (LCD22WMGX and LCD24WMCX)
- No Touch Auto Adjust<sup>™</sup>, which reduces set-up time and provides optimal image settings upon initial power-on
- Glossy Black Bezel, a stylish cabinet and ID, highlighted by a glossy, piano-black bezel to create an attractive focal point for any workspace

- Tilt and cable management, which add comfort and flexibility to the user's visual experience
- RoHS compliance, which ensures the displays are free of lead, hex-chrome, cadmium, PBDE and PBB, with reduced mercury
- EnergyStar 4.0® compliant
- 3-year warranty, including parts and backlight, and 24/7 support from NEC

The AccuSync LCD19WMGX is available for shipment with an estimated street price of \$279.99, the AccuSync LCD22WMGX is available for shipment at \$379.99, and the AccuSync LCD24WMCX will be available later in September at \$549.99.
