**NEC DISPLAY SOLUTIONS INTRODUCES LATEST FEATURE-RICH  
MONITOR TO MULTISYNC E SERIES**

***20-inch AH-IPS LCD Gives Users Clear Off-Angle Viewing for Collaboration,  
Slim Design Saves Valuable Desk Space***

**CHICAGO – October 21, 2015** – [NEC Display Solutions of America](#), a leading provider of commercial LCD display and projector solutions, today announced the MultiSync® E203Wi-BK wide-screen desktop monitor with LED backlighting. This feature-rich display gives corporate and small-to-medium-sized business users a key tool to enhance productivity.

The LCD display features a high-performance AH-IPS panel, which provides wide viewing angles, outstanding color consistency and image accuracy. It also includes DisplayPort for added connectivity options, as well as a full-function ergonomic stand.

In addition, the E203Wi display radiates less heat, uses less packaging and utilizes more recycled plastics in its production. Mercury-free LED backlighting improves energy efficiency, reducing power consumption by nearly a third compared to its predecessor, while enabling easy transport and a slim design for saving valuable desk space. The monitor also is compliant with ENERGY STAR® 6.0; and includes ECO Mode™ and carbon footprint meter tools.

“Businesses, regardless of size, are looking for high-performance monitors that save them money,” said Kevin Christopherson, Director of Product Marketing for Desktop

Displays at NEC Display Solutions. “The E203Wi display delivers an outstanding set of features, is environmentally friendly and comes at an affordable price.”

The E203Wi also features an attachment point for an optional mount to hold thin and zero client devices, giving businesses more options for their work environments. The optional mount will be available shortly through NEC Display Solutions.

The E203Wi-BK display includes the following features:

- 20-inch, 16:9, LED-backlit LCD wide-screen panel
- Fully ergonomic stand with height, pivot, tilt and swivel adjustability
- 1600 x 900 native resolution
- DisplayPort, VGA and DVI-D connectivity
- Compatibility with NEC’s NaViSet Administrator asset management system
- Intelligent Power Manager (IPM), off timer and ambient light sensor that automatically dims the screen to further reduce energy consumption
- ENERGY STAR 6.0 compliance
- ECO Mode and carbon footprint meter

The [E203Wi-BK](#) will be available in October 2015 at an estimated street price of \$179, and ships with a standard three-year parts and labor warranty, including the backlight.
