**NEC DISPLAY SOLUTIONS INTRODUCES VALUE-DRIVEN 21.5-INCH
MONITOR WITH AH-IPS PANEL TO MULTISYNC LINEUP**

DisplayPort, Height Adjustment Among Features of New Display

CHICAGO – October 14, 2013 – [NEC Display Solutions of America](#), a leading [provider](#) of commercial LCD display and projector solutions, announced today the 21.5-inch MultiSync® [E224Wi-BK](#) wide screen desktop monitor targeted to corporate and small-to-medium-sized business users.

This display features a premium-grade AH-IPS panel, which provides wide viewing angles, outstanding color consistency and image accuracy. It also includes DisplayPort for added connectivity options and height adjustment features.

Mercury-free LED backlighting improves energy efficiency, reducing power consumption by 25 percent, while enabling easy transport and a slim design for saving valuable desk space. The E224Wi also is compliant with ENERGY STAR® 6.0 and TCO 6.0, is EPEAT™ Silver rated, and includes ECO Mode™ and carbon footprint meter tools.

“The MultiSync E224Wi display is an ideal tool to help business professionals be more productive and achieve their core objectives – all within the scope of an attractive total cost of ownership,” said Kevin Christopherson, Director of Product Marketing for Desktop Displays at NEC Display Solutions. “LED backlighting and a host of other environmentally sound features like a carbon footprint meter speak to NEC’s leadership in environmentally friendly displays.”

The E224Wi-BK includes the following features:

- 21.5-inch, 16:9, LED-backlit LCD wide screen desktop monitor
- 1920 x 1080 native resolution
- DisplayPort, VGA and DVI-D connectivity
- Fully ergonomic stand with height, tilt and swivel adjustability
- Touch-integratable
- ECO Mode and carbon footprint meter
- ENERGY STAR 6.0, TCO 6.0 and EPEAT Silver compliance

The E224Wi will be available in October 2013 at an estimated street price of \$199 and ships with a standard three-year parts and labor warranty, including the backlight.
