**NEC DISPLAY SOLUTIONS INTRODUCES 23-INCH WIDESCREEN MONITOR  
WITH MULTITUDE OF ECO-FRIENDLY FEATURES**

***Users Also Benefit from E233WM's Advanced Feature Set***

**CHICAGO – December 14, 2015** – [NEC Display Solutions of America](#), a leading provider of commercial LCD display and projector solutions, today announced the MultiSync® E233WM widescreen desktop monitor with LED backlighting. Targeting corporate and small-to-medium-sized businesses, the display includes eco-friendly features and a slim design to save valuable desk space.

Compared to previous generation LCDs, the E233WM display radiates less heat, uses less packaging and maximizes recycled plastics in its production. Mercury-free LED backlighting and a carbon footprint meter help improve energy efficiency. And the display also is compliant with ENERGY STAR® 6.0 and includes ECO Mode™.

“Organizations are looking to empower their workers with every tool that provides a competitive advantage and elevates productivity,” said Kevin Christopherson, Director of Product Marketing for Desktop Displays at NEC Display Solutions. “With its sleek design and green features, the E233WM display does just that at an attractive price point.”

The E233WM also features an attachment point for an optional mount to hold thin and zero client devices, giving businesses more options for their work environments. The optional mount will be available shortly through NEC Display Solutions.

The E233WM display includes the following features:

- 23-inch, 16:9, LED-backlit LCD widescreen panel
- 1920 x 1080 native resolution
- 250 cd/m<sup>2</sup> brightness and 1000:1 contrast ratio
- Fully ergonomic stand with height, pivot, tilt and swivel adjustability
- DisplayPort, VGA and DVI-D connectivity
- Integrated speakers for enhanced user experience
- Compatibility with NEC's [NaViSet Administrator 2](#) asset management system
- Intelligent Power Manager (IPM), off timer and ambient light sensor that automatically dims the screen to further reduce energy consumption
- ENERGY STAR 6.0 compliance
- ECO Mode and carbon footprint meter
- Available only in black (E233WM-BK)

The [E233WM-BK](#) will be available in December 2015 at an estimated street price of \$229, and ships with a standard three-year parts and labor warranty, including the backlight.
