NEC DISPLAY SOLUTIONS ANNOUNCES FOURTH-GENERATION E SERIES OF LARGE-SCREEN DISPLAYS

E Series Family Adds Bigger Screens and Smaller Bezels to NEC Portfolio

CHICAGO – June 4, 2013 – [NEC Display Solutions of America](#), a leading [provider](#) of commercial LCD display and projector solutions, announced today the latest generation of its LED-backlit E Series commercial-grade displays. The 42-inch [E424](#), 46-inch [E464](#), 55-inch [E554](#) and 65-inch [E654](#) displays add breadth and sleek design to the NEC portfolio of large-screen displays and digital signage.

E Series displays are ideal for educational institutions, corporations, quick-service restaurants, healthcare facilities and fitness centers. These displays are affordable, come with a three year warranty, and their LED backlighting simplifies installation and maintenance.

“The E Series displays offer organizations across a broad swath of industries a great way to deploy digital signage designed to exceed strategic business goals,” said Rachel Karnani, Product Manager of Large-Screen Displays at NEC Display Solutions. “At the same time, these displays reduce the environmental impact of any deployments through the elimination of hazardous materials.”

The E Series displays include the following features:

- LED backlighting technology for reduced power consumption
- Thinner bezels for the E424, E464, E554 displays

- Up to full HD resolution and 4000:1 contrast ratio, which provide stunning imaging
- Backlight adjust, which customizes the strength of the LED backlight, enabling longer display life and lower power consumption
- Three HDMI inputs, which enhance best-in-class connectivity
- Multiple picture modes, which adjust the picture appearance for optimum viewing experiences
- Advanced video settings, which ensure source material is displayed properly and accurately
- Built-in ATSC/NTSC/QAM analog/digital tuner, which allows for high-definition broadcast capabilities
- Built-in closed-captioning, which enables users to display text information for the hearing impaired
- RS-232C, Ethernet (RJ45), IR Remote for external control
- Detachable stand
- Optional accessories, which include a wall mount kit ([WMK-3257](#)) and an external single board computer ([TNETPC-AF-WH](#))

The E424, E464, E554 and E654 will be available at a minimum advertised price of \$679, \$849, \$1,279 and \$2,699, respectively. These displays begin shipping with the E464 in late June. All four displays ship with a 3-year parts and labor warranty, including the backlight.
