**NEC DISPLAY SOLUTIONS INTRODUCES NEW MULTISYNC ENTERPRISE
LCD SERIES WITH PREMIUM 26-INCH DESKTOP DISPLAY**

***Feature-Rich, Superior Performance, EPEAT Gold Monitor Delivers
Exceptional Quality***

CHICAGO – June 18, 2008 – NEC Display Solutions of America, a leading stand-alone provider of commercial and residential LCD and plasma displays and projectors, announced today the launch of its new MultiSync Enterprise Advanced (EA) Series by introducing the 26-inch EA261WM desktop LCD monitor.

The MultiSync EA261WM desktop display can be seen at InfoComm 08 today through June 20 at the Las Vegas Convention Center in Las Vegas, Nev. NEC Display Solutions will be located in Booth No. C1208.

This new premium enterprise display is ideal for corporate, education and government environments. Its extensive feature set, innovative technologies and design are ideal for those in IT, financial, gaming, CAD/CAM and control center areas. Its widescreen design capitalizes on the growing trend of wide-format applications and helps users be more productive. The MultiSync EA261WM delivers superior performance and embodies the qualities that discerning users require.

“The new MultiSync EA Series brings premium NEC quality to those users who demand exceptional technology, rich features, top performance and high productivity,” said Lynn

Gu, Product Manager at NEC Display Solutions. "This exciting new series demonstrates our commitment to bringing the highest quality desktop displays to the enterprise market."

The MultiSync EA261WM display includes the following features:

- 1920 x 1200 resolution (WUXGA)
- 400cd/m² brightness
- 1000:1 contrast ratio
- 5ms response time
- Ambix®, NaViSet™, No Touch Auto Adjust™
- 92 percent color gamut, HDCP
- HDMI capable via adapter, 720p and 1080p from DVI-D
- 4-port USB hub
- 4-way adjustable stand (height, tilt, swivel, pivot)
- New cabinet design with OSD® controls built into bezel
- Down-firing speakers with headphone jack
- Built-in carrying handle
- Cable management cover
- Dynamic Video Mode
- ECO Mode™
- Carbon Meter
- Windows Vista™ Premium Compatible

By using NEC's ECO Mode, users can lower power consumption and save energy. NEC takes pride in being environmentally responsible, certifying its EA261WM with EPEAT Gold compliance to ensure reduced levels of environmental hazards and emissions of greenhouse gases.

The MultiSync EA261WM display comes with a three-year parts, labor and backlight warranty, and an extended warranty is available. The display will be available for August 2008 shipment at an estimated street price of \$679.99.
