## **NEC DISPLAY SOLUTIONS PARTNERS WITH DIVERSIFIED TO DELIVER NEW UNIFIED CONTROL ROOM PLATFORM**

*Diversified's VantagePoint to feature NEC Display hardware in scalable, all-inclusive platform to enhance situational awareness in mission critical operations centers*

**CHICAGO – January 23, 2019** – NEC Display Solutions of America, a leading provider of commercial display and projector solutions, announced today a partnership with technology solutions provider Diversified to provide displays for [VantagePoint](#), its latest mission-critical workspace platform. Designed by Diversified, VantagePoint utilizes NEC's innovative displays to deliver an all-inclusive solution designed for easy use and installation to heighten awareness, limit response time, and enable faster, more effective decision-making within mission critical settings.

"NEC Display prides itself in being a trusted partner within the industry," said Richard Hutton, Senior Director of Channel Marketing at NEC Display Solutions. "That's why we're pleased to provide our expertise in display design and implementation to help deliver a complete customer-centric solution as part of Diversified's VantagePoint platform."

Developed to meet the needs of a dynamic clientele, VantagePoint addresses the requirements of many mission critical applications including electric utility control rooms, security operations centers, social media listening centers, operations centers and more.

"The marketplace and our customers' requirements are changing," says Robert Cameron, Director of Strategic Initiatives at Diversified. "VantagePoint allows us to evolve with them, offering an easy and affordable way to implement scalable situational awareness capabilities in any mission critical operations environment."

The partnership between NEC Display and Diversified on VantagePoint is in response to a growing customer need to streamline real-time information through an easy to use, affordable control room solution.

“Control rooms serve as the main point for monitoring and managing mission-critical applications,” Hutton said. “As these areas continue to evolve and grow more complex, NEC Display will continue to help deliver innovative video wall and monitoring solutions that meet the demanding 24/7 requirements of the industry.”
