News Release

**Sharp Enhances its MultiSync® PN-Mxx2 and PN-Pxx6
Display Series for Unparalleled Performance and Flexibility**

*These new professional-grade models provide longer-
lasting brightness and the highest quality color visualization*

MONTVALE, NJ – June 3, 2025 – [Sharp Imaging and Information Company of America](#) (SIICA), a division of Sharp Electronics Corporation (SEC), added to the high-performance MultiSync® PN-Mxx2 and PN-Pxx6 Series with three new models: the PN-M552, PN-M652 and PN-P556. These premium displays are designed for today's fast-moving, hybrid environments - whether that's a boardroom, retail space, or airport terminal.

Available in 55" (54 6/10-inch diagonal) and 65" (64 ½-inch diagonal) Class sizes, the new PN-M and PN-P models deliver serious upgrades in brightness, reliability, and color clarity. Marking 40 years of MultiSync innovation, these premium displays continue to raise the bar for quality and performance that customers trust.

What's New:

- **Next-Level Picture Quality:** Powered by SpectraView Engine tech, these displays ensure consistent color accuracy and customization—so what you see is always what you meant to show. Additionally, the PN-P products offer wide color gamut panels, allowing for more vibrant imagery through a larger range of color options.

- **Bright & Built to Last:** PN-M552 and PN-M652 models bring 550 nits of brightness, while the PN-P556 ramps up to 700 nits, with luminance stabilization tech that helps keep visuals crisp over time.

- **Smarter Cooling:** Built-in sensors auto-adjust for overheating, so you stay up and running without a hitch.

Designed for Flex:

- **All-in-One Connectivity:** These displays feature a USB-C input that supports 65W power delivery and upstream capabilities for hub functionality. With video and control daisy chain options, they offer flexible collaboration and content capabilities without the clutter.

- **Modular Setup:** Equipped with SDM-S/L slots for clean, cable-free installs - perfect for modern spaces that prioritize aesthetics and flexibility.

- **System-Friendly:** Full control support and system compatibility make integration smooth, no matter your setup.

"The new MultiSync PN-Mxx2 and PN-Pxx6 models are an exciting addition to Sharp's portfolio, offering customers professional-grade displays that boast a wide variety of features and size options" said Ben Hardy, Senior Product Manager at Sharp. "Users can anticipate the Sharp MultiSync quality, along with new enhancements designed to simplify integration and ensure long-term durability."

With security top of mind for modern businesses, the PN-Mxx2 and PN-Pxx6 Series offer upgraded, built-in security features. These include IEEE 802.1X authentication, disable LAN/USB data ports, administrator passwords, browser control, address filtering and internal encryption for secure use. Beyond security measures, the PN-P556 is backed by Sharp's industry leading 5-year warranty, while the PN-M552 and PN-M652 models have a 3-year warranty to ensure quality and reliability.

The PN-M552, PN-P556 will begin shipping in June, while the PN-M652 displays will begin shipping in July. To learn more about these models, please visit www.sharpnecdisplays.us.
