**NEC DISPLAY SOLUTIONS EXPANDS DIGITAL SIGNAGE PORTFOLIO
WITH 2x2 and 3x3 VIDEO WALL BUNDLES**

***46-inch X Series LCD Displays with Ultra-narrow Bezels and Peerless-AV
Pull-out Mounts Deliver Simple Signage Solutions***

CHICAGO – August 15, 2013 – [NEC Display Solutions of America](#), a leading [provider](#) of commercial LCD display and projector solutions, announced today the addition of two [video wall](#) bundles for all-in-one, easy-to-configure digital signage solutions.

The 2x2 ([X462UN-TMX4P](#)) and 3x3 ([X462UN-TMX9P](#)) LCD TileMatrix™ Digital Video Walls leverage four and nine [X462UN](#) displays, respectively, with the full adjustment capabilities of the Peerless-AV pull-out mounts. This mounting system allows for simple installation with perfect alignment and access for servicing the video walls.

The 46-inch X462UN's ultra-narrow bezel allows for a screen-to-screen distance between two neighboring X462UN displays of only 7.3 millimeters. The barely discernable transition gap between displays ensures a homogenous picture across the matrix. Minimal bezel widths also help avoid interruptions of the displays.

“Our new video wall bundles are ideal for dynamic digital signage, and command and control applications,” said Rachel Karnani, Product Manager of Large Screen Displays at NEC Display Solutions. “The X462UN ultra-narrow displays and the Peerless mounts that comprise these bundles offer a simple and cost effective video wall solution.”

The X462UN-TMX4P and X462UN-TMX9P video wall bundles include the following features:

- Professional-grade LCD panels, advanced thermal protection and sealed panel design for the most formidable digital signage industry requirements
- EdgeComp technology, which ensures consistent images across the entire video walls
- TileMatrix technology, which allows for easy manipulation of a single picture to 2x2 or 3x3 formats
- Copy function, which allows the application of settings from one display to all others
- Full connectivity with DisplayPort, HDMI and DVI-D digital inputs, and Ethernet with automated email notifications for diagnostic purposes
- Standard on-site warranty service for all included displays

The X462UN-TMX4P and X462UN-TMX9P will be available this month. Contact your reseller or distributor for latest pricing.
