

A GAME-CHANGING INSTALLATION PROJECTOR

Advanced features at an affordable cost

Designed to be the perfect solution for corporate conference rooms and higher education classrooms, The NEC P627UL laser projector combines professional-level features with a budget-conscious price.

Make distraction-free presentations

Engage audiences with higher brightness and brilliant colors

6200

LUMENS **4K UHD READY**

LCD technology and WUXGA resolution provides more brilliant and accurate color in demanding applications. With high performance video processing and scaling, the P627UL supports 4K/30 content.

Enjoy maintenance-free operation

20,000 hours expected lifetime + sealed optical engine + filter-free operation = the perfect maintenance-free projection solution

Use in conference rooms and classrooms

The P627UL's near-silent operation – along with its high brightness and vivid color rendition – is ideal for corporate conference rooms and higher education classrooms. Even better, its long laser life and filter-free, no-maintenance design lower the total cost of ownership.
